

Accessibility Statement – Ballawyllin Farm Cottage

The cottage is single storey but due to its origins as a farm building constructed on a slope it has uneven floors, steep steps (2-3) between each room, and a narrow door to the bathroom.

The driveway outside slopes significantly, although a car can stop within 2m of the front door to drop off passengers (car parking is 20m further away down the sloping driveway).

Due to these features the cottage is unsuitable for those with physical or visual disabilities.

We are currently constructing two new cottages, which will be more suitable for those with disabilities.
